

SMARTCUT BAND

When sawing narrow parts from expensive metal bars or blocks, using SMARTCUT BAND gives you twofold cost-saving benefits: reducing material waste, disposal cost and increasing parts yield per bar, resulting in additional profit. The power of accumulating little savings cannot be underestimated. "A penny saved is a penny earned."

Regular Kerf Band

1-1/2" x 0.050"
(Standard Band Thickness)

Smartcut Band

1-1/2" x 0.035"
(Special Band Thickness)

Material Waste
Reduced by
Approx. 24%
