

Technical drawing of the MIRA 2000 machine. On the left, a side profile of a person is shown with a vertical dimension line indicating a height of 5'5". To the right of the person is a tall, rectangular control cabinet with a control panel featuring a digital display and buttons. Further right is the main machine structure, which includes a large, curved, U-shaped component, likely a turntable or a large container, mounted on a base with various mechanical components and a circular fan or vent on the right side.
