

# HK-400

## MULTI PURPOSE SAW

### Rigid Post Construction

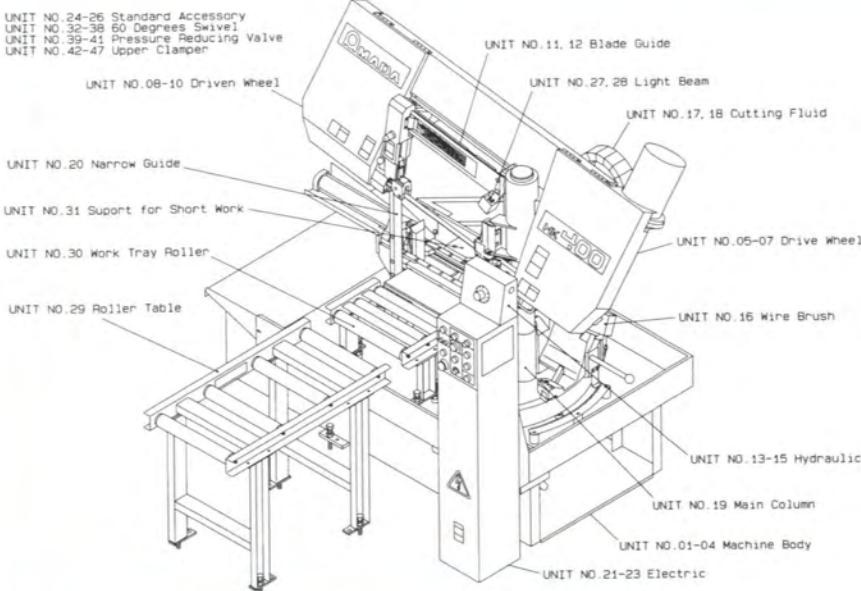

- Allows minimal guide arm span for maximum beam strength providing longer blade life and faster cutting rates.
- Allows for consistent feeding throughout the cut with 8° head angle.
- Allows for minimal blade size and maximum capacity.

### Easy Operation

- Hydraulic full stroke vise
- Variable blade speed controlled by inverter
- 45 degree miter capability
- Light beam for precise material positioning

### Cost Saving

- 15% less **blade cost** than other 16" capacity saws
- 30% faster cutting rates provide **production cost** savings
